# Capsule Info

**Ingredients:** one foamy shape per capsule

**Directions:** dissolve one capsule at a time, as needed. Fill a sink with warm water. Immerse the capsule in the water and wait in great anticipation to see what your foamy shape will be!

**To use:** Take turns with your spouse hiding your foam shape. Eagerly wait to see where you will next find the shape – it may be in a deodorant lid, in a pocket of your jeans, under the remote, between the prongs of a comb, left in a cereal bowl, in a school/work bag, etc. The possibilities are endless! Once you find it, quickly re-hide the foam shape in a new and more exciting place. Wait a few days and giggle when your spouse finds it somewhere new.

**Warnings:** keep away from your children and pets, as they TOO may want to play along. 😊

Enjoy a fun game with your spouse, relax, and be silly again!

Remember, it is the Dr.'s orders.
