

# HOW TO PRINT

## *your sticky notes*

PRINTING YOUR LOVE NOTES ONTO STICKY NOTES IS SIMPLE!

1

**Print the sticky note TEMPLATE on page 2.**

Tip: Familiarize yourself with how your printer feeds the paper in order to avoid printing upside down. (i.e. Some printers flip the paper over to print while others don't.)

2

**Place a 3 inch x 3 inch sticky note in each square of the template.**

Tip: Make sure all corners are flat on the page and the note is centered within the square.

3

**Place the paper back into the printer - taking special care to double check the orientation.**

Tip: To avoid a paper jam, you will want to ensure that the top sticky edge of the note is pulled through the printer first.

4

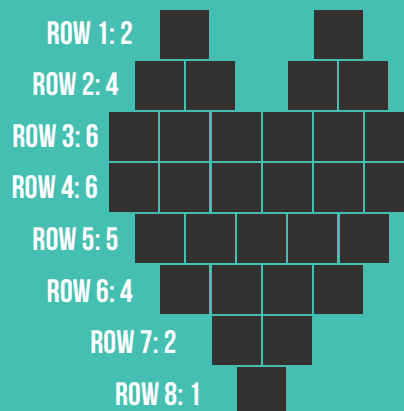

**Print the sticky note designs from pages 3-7.**

**Personalize the notes by filling in things you love about your sweetheart!**

5

**Place the sticky notes where your sweetie will see them! If you want to place your stickies in the shape of a heart - just use the following visual as a guide:**
