SPIN THE BOTTLE

Set up the board by placing the "Spin the Bottle" circle in the center. This is where you will spin the empty bottle. Pair point values with specific actions, and lay them around the center circle.

Before game play begins, each player writes something they will do if they loose on their wager card. Don't let your partner see your wager until the game is finished!

The game is played with each player taking a turn spinning the bottle. When the bottle has come to a complete stop, that player completes the action the nose is pointing at and records the number of points they've earned on their score card.

The game is won once one player earns 200 points, or whoever has the most points after 5 rounds. The winner then recieves the special prize wagered by the other player at the beginning of the game.

SCORECARD

PLAYER 1

Blank area for Player 1's scorecard.

PLAYER 2

Blank area for Player 2's scorecard.
