

# Sexy Pillow Talk Conversation Starters Pillow Box Case

To make this case, all you need is: a glue stick a ruler and a paper scorer (which a butter knife should do the trick!) Print, Cut around the edges of the template. Score along the dashed-edges of the template to make a crease. This will allow you to fold the box easily. Glue along the outer flap of the pillow box template, on the printed side. Once the glue is added, simply fold this flap inward, and allow it to adhere to the opposite inside edge of the box. Once dried, simply assemble your box by squeezing the long-edges together, and folding in the short edges along the curved creases.
