NIGHT GAME IDEAS

WHEN THE SUN GOES DOWN THE FUN IS JUST GETTING STARTED! HERE ARE 3 FUN AND ENERGETIC NIGHT GAMES TO BRING OUT THE KID IN ALL OF YOU. BE SAFE, FOLLOW THE RULES (OF THE GAME AND THE LAND) AND HAVE A BLAST!
GAME ON!!

CAPTURE THE FLAG

Split the group into 2 teams. Divide the playing field in half. Allow time for each team to hide their flag on their side of the field. Let the games begin! First team to find the other team's flag without being tagged off-sides wins.

SARDINES

It's hide-and-peek in reverse. While everyone closes their eyes one player hides. When the group finishes counting, the hunt is on! All the seekers spread out in search of the hidden player. When the seekers find the hidden player, they join him/her. As each seeker finds the group of hiders, they crowd in and hide. (Packed like sardines, get it!?)

FUGITIVE

Here's the idea: get from point A to point B without being captured. Before starting the game, choose two drivers to be the 'cops' and a perimeter should be set up. The drivers then give the poor runners a few minutes head start before setting out on the hunt!. The drivers should have flashlights to search the streets for the fugitive runners. If a fugitive is captured by the drivers, they help search out the remaining fugitives. The winner is the first fugitive to get back to base without being detected.
