Don't Let Our Love Boat Sink- OFFICIAL RULES

Object of Battleship:

To become the winner of Our Love Boat you must be able to find and try NOT to sink all four ships on your Lovers graph. The first person to sink all four of their Lover's Boats, loses! We are trying to keep each other's Love Boats ALIVE! ☺

Game Preparation:

Each Lover should hide all four of their boats secretly on their graph by filling in the designated squares for each boat size on the bottom graph labeled "My Love Boat Zone". It is against the rules to place any boat diagonally on your ocean. Once all boats have been placed and each Lover announces that they are ready, the game of "Don't Let Our Love Boat Sink" begins. Changing the position of your boats during the game is also against the rules.

Game Play:

Each lover take turns announcing one shot (or coordinate) by calling out a letter and a number of where you think their boats might not be. Each turn, your attempting NOT to hit one of your Lovers, love boats. Once a shot is called, the player must immediately call out "hit" or "miss." If one of your boats get hit, circle the square on your playing card where your boat was.

Once all squares of a boat have been circled, your boat has sunk and must be removed from the ocean. You then announce which boat has sunk.

Keep track of your own shots you fire using the top graph labeled "My Lover's Love Boat Zone".
