

You are not illiterate

You will be hungry again in one hour.

Never tease an armed midget with a high five.

Go to bed with itchy bum, Wake up with stinky finger.

The greatest danger could be your stupidity.

You are almost there.

You have at your command the wisdom of the ages.

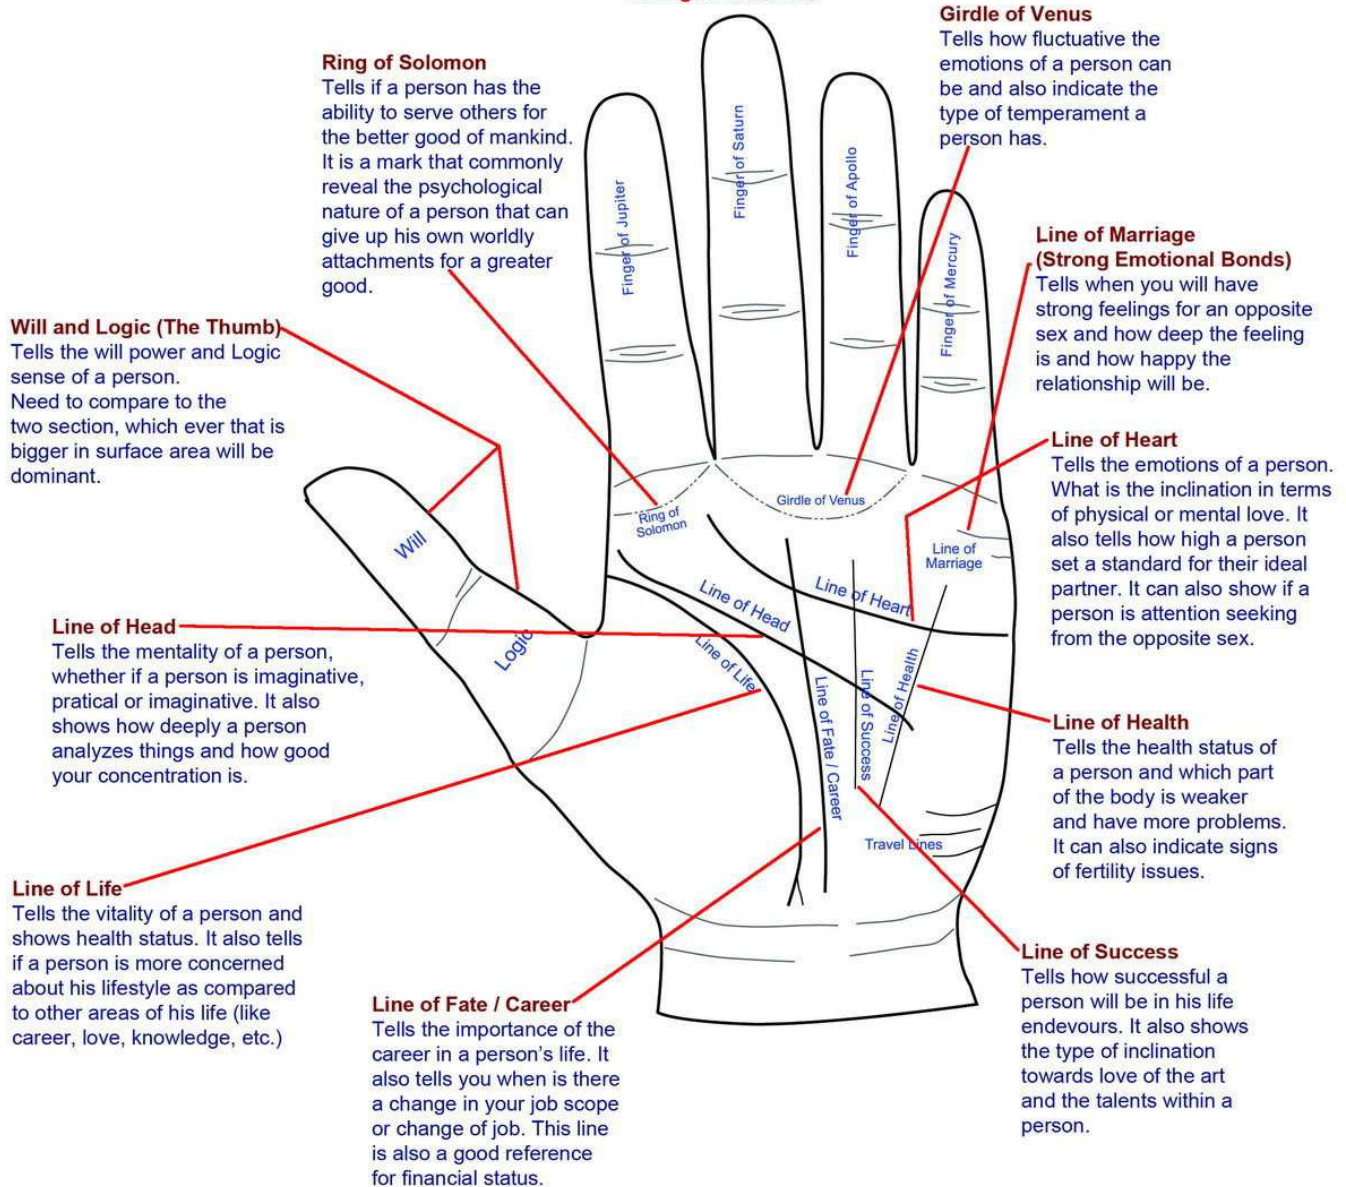

Your kindness is much appreciated.

This suspense is exciting, I hope it lasts.

Perhaps you've been focusing too much on that one thing.

1. **Sexy spouse:** the highest line on the bottom half of your middle finger represents how hot your significant other will be. If your line is really low, then your spouse is probably the olga type, I'm sure she has a nice personality.
2. **Money line.** The higher the arch, and the higher the line goes up, the more money you will have. Some people often have plateau lines. Tough luck cookie.
3. **Marriage:** if the two lines connect then congrats, you're getting married. If they don't, then you're probably not getting married, but hey, Olga's single and ready to mingle.
4. **Life:** if your life line extends all the way down your palm, then you will live a long life.

If your palm does not have the ideal outcome, then here are a few scientifically proven simple steps on how to achieve life happiness. [Note: this is just an excerpt. the full annotated version can purchased in exchange for your money line.]

Arch your palm in strange positions until you see the lines all assemble in the correct, ideal formation. Make sure the life line is long, mold your significant other's physical attractiveness and make sure the money line is bold. Then tape your hand together and leave it there for at least 5 days. Your hands will start to cramp. When this happens dunk your hand in a fresh bucket of cement and let it solidify. Leave it there for another 5 days. After that, you should have the right lines.

... anyway, that was a total tangent.
