

Roses are red
Violets are blue
And I've got the best
Date planned for you!

But before we can go
You've got to bring
All the parts
To make this date sing!

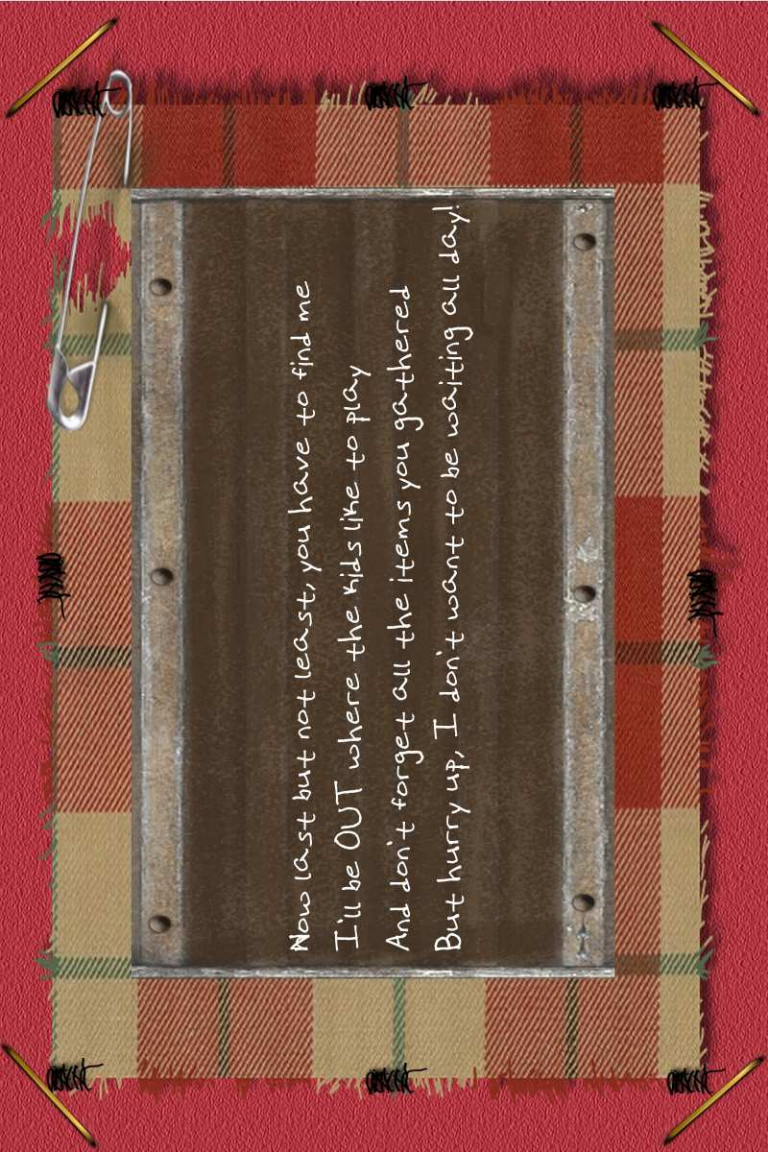

Item #1 will be found
Inside the door
Of something that heats
and cooks food
Hint: it's located WAY off
the floor!

A rectangular metal tray with four circular holes on its sides is centered on a red and tan plaid fabric. The tray contains three lines of handwritten text in white. The background is a red fabric with a plaid pattern of red, tan, and green. The tray is secured to the fabric by four black corner fasteners. A silver paperclip is attached to the top edge of the tray.

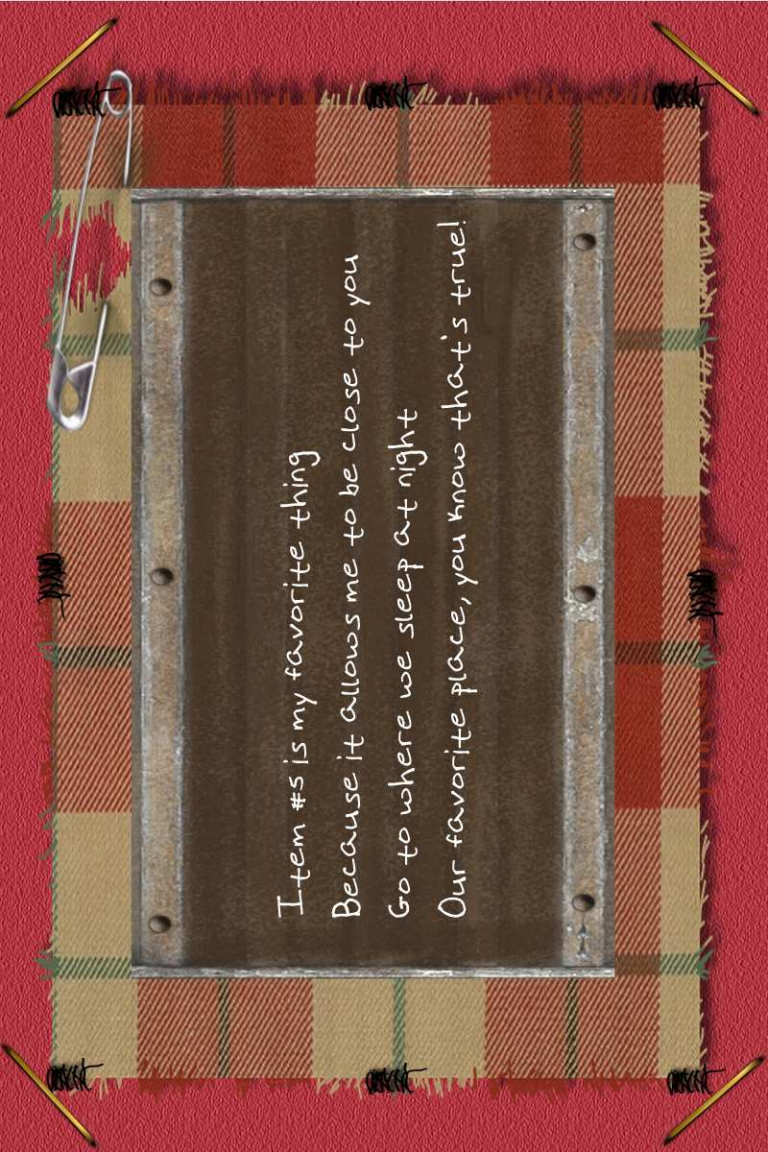

Item #2 will be put
On a shelf with all the food
Where it will keep
Helping set "the mood"

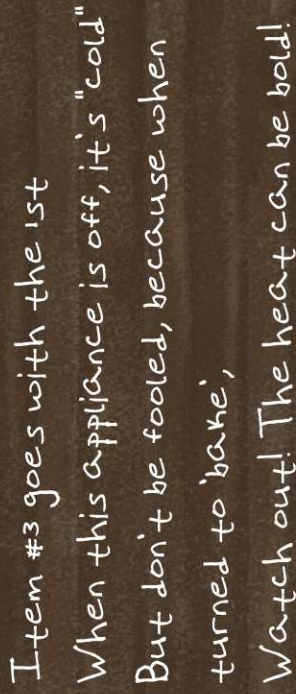

Item #4 sparks lots of fun
Because all night it's 'fizzes' will
keep us going
It's found in a cold place,
And will keep the happiness 'flowing'!

Now last but not least, you have to find me
I'll be OUT where the kids like to play
And don't forget all the items you gathered
But hurry up, I don't want to be waiting all day!

A metal sign with a plaid background and a red background with yellow pencils and black string. The sign is rectangular and has four holes along its top edge. The text is written in white cursive. The background is a red fabric with yellow pencils and black string. The sign is placed on a plaid fabric with red, green, and yellow squares. The text on the sign is:

Item #5 is my favorite thing
Because it allows me to be close to you
Go to where we sleep at night
Our favorite place, you know that's true!

Item #3 goes with the 1st
When this appliance is off, it's "cold"
But don't be fooled, because when
turned to 'bake',
Watch out! The heat can be bold!
