

## Couple's Journal Starters...

Remember when...

I love you because...

One of my favorite memories...

I knew I loved you when...

You make my day brighter when...

When we kiss it is like...

You're my best friend...

Thank you for all you do...

My greatest joys in life are...

I love it when you...

I hope we can...

I would really love to...

You're everything that's amazing...
