

# WOK TOK

Just like a conversation between a husband and wife... it's not what is SAID, but what is HEARD that matters.

Cut the phrases into strips and take turns reading one aloud. You may need to repeat them, say them fast or slow, group them together, etc. But the goal is to have your spouse or group guess the phrase without seeing it

- just by HEARING it. ENJOY!

(Just in case you get stuck, the answers are also included at the end... but no peeking unless you have to!)
