

Two little lovers sitting in a tree....

1. Type up your favorite or most meaningful love song on a Word document & print it over & over again so it fills up the whole sheet of paper (font size no bigger than 10 - 12).
2. Then, print out the sheet you just created. Once printed, put that same sheet back into your printer and print the 'tree' page right on top of the love song words.
3. After you have printed both parts on the sheet, cut out the tree along it's solid edges & one of the heart pairs to the right. Write your name & your sweetheart's name on the hearts, and use some type of ribbon or twine to tie the hearts onto the lowest hanging branch.
4. Frame your work of art!!
