

# LOVE HUNT TASKS

## DIRECTIONS:

You can have your sweetheart complete these tasks in any order. Just attach them to the front of the 6 envelopes and place the last 6 clues inside those envelopes. As seen in the pictures, you'll hand the first clue {no strings attached} to your other half. Once he finds the next clue – it will be in an envelope with a task on the outside that will need to be completed before that clue can be read. Continue on in this manner until he either finds his surprise in the laundry room OR ends up in your decorated bedroom. {You get to choose the ending.} Feel free to make up your own tasks and clues using our blank cards.
